## ABOUT

# Fusion Energy Base

The central information platform for the global fusion energy industry.

Fusion Energy Base is the central information platform for the global fusion energy industry. Founded in 2019 by Sam Wurzel, Fusion Energy Base provides organized, freely accessible data on companies, labs, supply chains, jobs, and events, helping professionals track progress across the ecosystem and enabling newcomers to find their way in.

## OUR MISSION

To accelerate the fusion industry by providing organized information on companies, labs, supply chains, jobs, and events so those working in fusion can track what is happening across the ecosystem, and those looking to enter fusion can plug in.

## OUR VALUES

✓ Accuracy

✓ Neutrality

✓ High-Quality Data

✓ Free Access

## PRODUCT CATALOG

---

Fusion Energy Base gives organizations multiple channels to reach the engineers, researchers, and decision-makers driving fusion commercialization.

### Articles

Coverage of physics progress, commercial deals, financing, government spending, and affiliate interviews.

### Newsletter

Sent to over 1,800 subscribers. Covers platform updates, new articles, supply chain additions, and affiliate interviews.

### Supply Chain Directory

Comprehensive directory covering all areas of the fusion supply chain. Includes RFQ feature and self-service company profiles.

### Organization Directory

Covers fusion machine developers, investors, national laboratories, research organizations, universities, and non-profits.

### Jobs Board

The most up-to-date, comprehensive and widely used jobs board in the fusion industry, connecting top companies with qualified talent.

### Events

A curated calendar of fusion industry events, to help the community stay connected.

## AUDIENCE AT A GLANCE

Fusion Energy Base reaches professionals across the full fusion ecosystem. Our audience includes engineers, executives, and investors who make decisions that shape the industry.
